

The figure consists of two side-by-side coordinate graphs. The left graph is titled "Coordinate Graphing - First Quadrant" and shows a fox character in the first quadrant. The right graph is titled "Coordinate Graphing - Four Quadrants" and shows the same fox character in the fourth quadrant. Both graphs have a grid and axes labeled "X" and "Y". A large red "SAMPLE" watermark is overlaid across both graphs.

Coordinate Graphing - First Quadrant

The grid is a 25x25 square grid. The x-axis is labeled from 0 to 25, and the y-axis is labeled from 0 to 25. A large red 'SALE' watermark is diagonally across the grid.

SAMPLE

Name: _____ ©Giang Ma

Coordinate Graphing - First Quadrant

The image shows a coordinate graphing grid for the first quadrant. The x-axis is labeled 1 through 34, and the y-axis is labeled 1 through 45. A large red watermark 'SALE' is overlaid diagonally across the grid. A black line drawing of a stylized figure is also overlaid on the grid.

Coordinate Graphing - Four Quadrants

A coordinate plane with a grid. The x-axis and y-axis are labeled with numbers from -10 to 10. A pink 3D rectangular prism is on the left. A cartoon fox is in the center, facing left. A large red 'S' is on the left, and a large red 'A' is on the right. A yellow 3D rectangular prism is at the bottom. A blue arrow points to the yellow prism.

Coordinate Graphing - Four Quadrants

A coordinate graphing grid with x and y axes ranging from -17 to 17. A large, stylized, black-and-white line drawing of a city skyline is overlaid on the grid. The drawing includes a tall, thin skyscraper on the left, a large, complex building in the center, and a smaller, more angular building on the right. The drawing is composed of many straight lines and sharp angles, creating a geometric, abstract appearance. A large, red, diagonal watermark reading 'SAMPLE' is superimposed across the center of the image.
