Coordinate Graphing - First Quadrant

The grid is a 25x25 square grid. The x-axis is labeled from 0 to 25, and the y-axis is labeled from 0 to 25. A large, bold, red 'SALE' watermark is oriented diagonally from the bottom-left to the top-right, covering the central portion of the grid.

Coordinate Graphing - Four Quadrants

©Clang Ma

A coordinate plane with x and y axes ranging from -15 to 15. The x-axis is labeled from -15 to 15, and the y-axis is labeled from -15 to 15. A large red diagonal watermark reading 'SAMPLE' is overlaid across the graph.

Coordinate Graphing - First Quadrant

The image shows a coordinate graphing grid for the first quadrant. The x-axis is labeled 1 through 31, and the y-axis is labeled 1 through 45. A line drawing of a pencil is overlaid on the grid. A large red 'SALE' watermark is diagonally across the grid.

Coordinate Plane – 1st Quadrant: Pencil

Directions: Use the coordinates (ordered pairs) on the list to graph a picture. Plot each point, and then connect it to the next point. Color it.

Coordinate Graphing - Four Quadrants

A cartoon pencil character is the central figure. It has a pink eraser at the top, a yellow body with a brown band, and red-rimmed glasses. The pencil is waving with its right hand. It is positioned on a coordinate grid. A large red 'SAW' watermark is overlaid on the image.

Coordinate Graphing - Four Quadrants

A coordinate plane with x and y axes ranging from -17 to 17. A line drawing of a robot is centered on the y-axis. The robot has a rectangular head with a small antenna on the left, a square body with a spiral pattern, and a rectangular base. Its arms are outstretched to the sides, and its legs are at the bottom. A large red 'SAMPLE' watermark is diagonally across the image.

Coordinate Plane – Four Quadrants: Pencil

Directions: Use the coordinates (ordered pairs) on the list to graph a picture. Plot each point, and then connect it to the next point. Color it.
