Name: _____

Answer Sheet Introduction

Directions: The numbers in the picture are even numbers. Observe the numbers and fill in the blanks.

Bonus question: Can you name a planet starting with the letter 'M' closest to the Sun?
Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, Neptune, and Pluto.

What is an even number?
A number that is a multiple of 2. The last digit of an even number is 0, 2, 4, 6, or 8. Even numbers are those that can be divided into two equal groups.

Name: _____

Answer Sheet Even and Odd Numbers

Directions: Drag and drop the leaves to double the group you see. Fill the blanks.

There is 1 leaf in each group.
 $1 + 1 = 2$

There are 4 leaves in each group.
 $4 + 4 = 8$

There are 6 leaves in each group.
 $6 + 6 = 12$

There are 7 leaves in each group.
 $7 + 7 = 14$

Is doubling a number always results in an even number? Yes.

Name: _____

Answer Sheet Even and Odd Numbers

Directions: Pair the objects to decide if the number is even or odd. Drag and drop a checkmark to the correct answer.

Even ☒ Odd ☐
All objects are paired up in 2s. All objects are paired up in 2s.

Even ☒ Odd ☐
There is an extra one left without a partner. There is an extra one left without a partner.

Name: _____

Answer Sheet Even and Odd Numbers

Directions: Drag and drop an even or odd sign for each equation. Fill in the blanks.

even $8 + 6 = 14$ odd $20 - 13 = 7$ even $5 + 15 = 20$

odd $12 - 3 = 9$ even $18 - 0 = 18$ odd $9 + 8 = 17$ even $10 - 5 = 5$

even $14 - 6 = 8$ even $15 + 1 = 16$ even $2 + 12 = 14$ odd $7 - 12 = -5$

- When two even numbers are added, the total will be an even number.
- When two odd numbers are added, the total will be an even number.
- When an even number and an odd number are added, the total will be an odd number.
- When a zero and an even number are added, the total will be an even number.
- When a zero and an odd number are added, the total will be an odd number.
